

## FROM DATA TO DESIGN

### Implementing Evidence Based Practices to Optimize Health in Buildings

December 1, 2015 NIH Hatcher Conference Center

---

**8:00 - 8:30 Coffee and networking**

#### **SESSION 1: The New Research Frontier**

8:30 Welcome - Charles Blumberg, NIH

8:45 Setting the Context – Judith Heerwagen, US General Services Administration

9:00 William Riley, Director, NIH Office of Behavioral and Social Sciences Research

9:15 Esther Sternberg, University of Arizona Medical School and Director, Institute on Place and Wellbeing

**9:45 Break**

#### **SESSION 2: Linking Wellness and Environmental Experience: Emerging Methods**

**10:00 – 11:30**

Mariana Figueiro, Rensselaer Polytechnic Institute, Lighting Research Center

Casey Lindberg, University of Arizona Institute on Place and Wellbeing

Charlene Bayer, Hygieia Sciences LLC and the Georgia Tech Research Institute

Kevin Hart, TZOA

**11:30-12:30 Lunch and Networking**

#### **SESSION 3: Using data to Drive Change in Practice, Standards, and Policy**

**12:30-2:30**

Mark Rea, Rensselaer Polytechnic Institute, Lighting Research Center

Melissa Walker, US General Services Administration

Priya Premchandran, Google

Whitney Gray, International WELL Building Institute

Joyce Lee, Indigo JLD

**2:30-2:45 Break**

#### **SESSION 4: How Do We Apply What We Have Learned Today to Real World Practice?**

**2:45-3:45**

Suzanna Wight Kelley, AIA

Fernando Arias, ASID

Angela Smith, Academy of Sports Medicine and Nemours/Alfred I. DuPont Hospital for Children

J. Kofi Berko, HUD

#### **SESSION 5: Teams brainstorm: “The ideal health focused building and workplace”.**

**4:00-4:45** The results from the team discussions will form the basis of next year’s conference which will focus on data driven design and operations of buildings to optimize health and well being.

**4:45 – 5:00 Wrap Up**
